Window Displays.

It is becoming fashionable, and is very commendable to those engaged in it, to decorate and beautify their windows, displaying to advantage their merchandise. It looks well and is pleasing to the eye, and is calculated to attract the attention of passers-by. It is also a good sign that the proprietor is awake to his own interests, and is anxious to show his goods to the best advantage. But to be fully awake nothing would pay him better than a well displayed advertisement in the CAPITAL JOURNAL. An advertisement of a quarter or half double column, setting forth what you have for sale, would be of more profit than any other investment that could possibly be made. A merchant remarked the other day that his sales were so few and far between that he felt it his duty to his family to cut down expenses somewhere, and so he took his advertisement out of the paper. Dull times is excuse for discontinuing an advertisement. Then is the time to set up a great blow and let the people know that you are still at the old stand, and selling first-class goods at less than cost. John Wamamaker, one of the most successful merchants now living, says that when a merchant takes his advertisement out of the paper, he had just as well take in his sign and quit business.

Our Board Walks.

There seems to be no general rule laid down by which one can be governed in constructing a sidewalk. Some are up and some are down, and the bicyclist is often worried by such a disregard on the part of the builders for his comfort and rapid progress, and the night pedestrian is not a little discommoded when a sudden rise in the board walk strikes him square across the shins, or when he stubs his toe on a sun-drawn nail, or when the loose end of a board interferes with the end of his nose. All of this is very annoying and should be remedied. Board sidewalks are a nuisance, they are breeders of disease, they are unsightly, they are perfectly horrible, especially when out of repair, and everyone is glad to see that they are rapidly disappearing in the business part of the city, and the time is not far distant when cement will take the place of boards all over the city. Salem is bound, by all laws that govern coming events, to put on a new dress and stand at the head of her sister cities in the most favored clime the sun ever shone on.

Thrown from a Wagon.

Wm. Claggett, who has been spending a few days in the mountains, was returning home with his family and in some way the seat slipped off of the wagon, throwing Mr. Claggett to the ground, striking on his head and bruising it very badly. At this time the horses began to run and Mrs. Claggett jumped from the wagon, catching the horses by the bits, thus saving the family from a bad accident. They were two miles from any house and no water could be found for Mr. Claggett. He lay senseless for about thirty minutes and was then put in the wagon and brought to this city, a distance of forty miles, and is resting easy this morning.

Salem Growing.

The sound of the hammer and saw can be heard in all parts of the city which proves that there is a great deal of carpenter work being done. A good many new houses are now under progress and the city continues to grow. New comers are arriving daily and they all say that they like Salem and its surrounding country. Letters are received almost daily from Eastern gentlemen asking about the climate and the wages for labor, and desire to know if work is plentiful. Salem is bound to grow.

Talmage Coming.

Provided, however, that a sufficient number of tickets can be sold, Rev. W. Rollins is busily engaged in receiving pledges for tickets to a lecture to be given by Rev. T. De Witt Talmage. The price of admission to hear this great man seems a little high but taking into consideration the popularity and general worth of this great orator, the price is not high. With a man possessed of the energy and pluck of Mr. Rollins to boom the scheme, there is no such word as fail.

Karl Gardner in "Fatherland."

The jolly German comedian and sweet singer, Karl Gardner, is meeting with immense success in the production of his new, picturesque, romantic comedy drama, "Fatherland." Mr. Gardner has thrown aside conventionalities of ideas, staid rules, and the usual threadbare motives, etc., and offers something so entirely new and novel that volumes of nice words would only be his just due. He has gained unstinted praise for his masterly impersonation of the brave, gentle and heroic character of Herman Leopold, the Tyrolean guide, which, taken with his fund of humor, his delicious love-making, noble sentiments, and sweet singing, form an impersonation that cannot fail to live in the hearts of all his beholders. Mr. Gardner sings a number of new songs, all of a pretty and tuneful nature, one especially so, "The Lilac," which has been a greater success from the start than any song ever put on sale. A company of talented artists fill the respective roles entrusted to them, and it has been conceded that it is the best company he has ever had. Those who delight in an absorbing play, good acting and listening to the sweetest of sweet singers should not fail to embrace the opportunity to witness Mr. Gardner's new play.

Celebration of Silver Wedding.

Mr. and Mrs. Eugene Breymann celebrated their 25th wedding anniversary at their residence on Wilson Avenue last evening. Some twenty invited guests were present, chiefly those intimately associated with the family as old residents and acquaintances of early days. Several beautiful and appropriate presents were given and the evening was a most enjoyable one. Letters and telegraphic dispatches of congratulation were read and a bountiful lunch served. Mrs. I. N. Gilbert read an interesting description of the wedding tour of which she was a party, and Mr. T. A. Clark read a very pretty and touching poem suited to the occasion. The guests departed at a late hour all heartily joining in the wish for their future success and happiness.

Gathering in the Shelves.

D. D. Prettyman called at the JOURNAL office to-day. He was loaded down to the guards with many different kinds of grasses, grains and fruits, which he has been collecting for some time in Washington territory. This collection goes to the Oregon land company. This company is making extensive preparations for the great exhibition that is to come off at Milwaukee in August next, and they are determined that the Pacific slope shall be well represented.

New Marble Quarries.

The Marble quarries located on Deer creek, about ten or twelve miles from Roseburg, are attracting a great deal of attention. Marble is found there of nearly every color and of the very finest quality. A company has been organized for the development of this quarry, and their object will be to develop marble and limestone quarries, and to manufacture and sell their product. The principal place of business will be in Roseburg.

Lunch Parties.

Lunch parties, among the sociably inclined citizens of Salem seem to be on the increase. It was instituted by the ladies, and solely and exclusively belongs to them. The custom is a pleasing one and is growing in popularity. It serves to keep alive and engender a good and friendly feeling toward each other, and affords an opportunity to display one's taste in the matter of decorating and beautifying their homes, as well as preparing tempting viands for their guests.

A Correction.

We are informed by one who seems to know that the statement in regard to horses being shot at the asylum is a mistake. Our informant says that no shots were fired or he would have heard them, and he is of the opinion also that the horses were gored by cattle. Allowing this to be a fact, is it not rather a bad idea to permit horned cattle to run at large in the same pasture with horses?

Arrival of the Journalists.

Some sixty in number of the Nebraska Press association arrived in Portland last night. They came prepared to enjoy themselves and are very enthusiastic over the scenery of the Columbia as seen on their trip up the river, and express themselves as being highly pleased with Oregon in general. They have not yet decided on their future movements.

The Water Company.

Owing to the shortness of time given for irrigating purposes, the company have extended it one hour, and now instead of from 5 to 7 o'clock to 8 o'clock in the morning will be given. This will be appreciated by all those who like to indulge in sleep an hour or two longer.

The capital stock is \$50,000, divided into shares of \$100 each. LINCOLN ITEMS.

Threshing begins next week, "Col." Jack Spong in command of Captain Toner's outfit. "Col." Spong does the best work in Spring Valley and receives the most orders.

Dr. Chase has improved the appearance of Lincoln more than any other man. He has built a fine bee hive factory, trimmed the trees along the sidewalk and fenced things up generally.

D. Abrams has a force of carpenters at work on his new store.

It is a nuisance here. The roads are lined with them and at times the grain fields are spotted with them—two to a shock, nor has potatoes escaped their ravenous jaws.
